euraxess  
RESEARCHERS IN MOTION

REBECA BY EURAXESS  
VIRTUAL MATCHMAKING FAIRS  
— RESEARCHERS2BUSINESSES

# ARE YOU A RESEARCHER?

---

Would you like to meet and discuss with representatives of companies operating (not only) in your research field and learn about their research portfolio? Would you like to find out about career opportunities, typical R&D positions in non-academic sector, requirements and responsibilities of R&D staff? Would you like to present your research achievements, look for cooperation and internships? If yes, our matchmaking event is the right opportunity to search for the answers to your questions.

# ARE YOU A COMPANY OPERATING IN THE FIELD OF HEALTH & WELLBEING, OR CLIMATE, ENVIRONMENT & MOBILITY?

---

Would you like to present the company to the young research community and other professionals? Would you like to promote internships or career opportunities? Would you appreciate an opportunity to meet and discuss with researchers and other companies operating in the similar field (not only)? Our matchmaking events offer you an access to the talent pool available across Europe and beyond.

# ABOUT THE EVENTS

---

European and regional policies aimed at targeted cooperation between academia and the private sector enable businesses to access the vast knowledge resources of the university and also help embed university expertise within the private sector. This type of cooperation makes possible to stimulate the development of the career skills needed for entrepreneurship, innovation and creativity among researchers. Therefore, we decided to provide researchers with an opportunity to discover variety of existing career opportunities outside academia and for companies to facilitate the connection with this talent via thematically focused online Researchers2Businesses (R2B) matchmaking events. This type of activity should help the permeability of research talent among non-academic research jobs and employers, including industry and businesses.

Moreover, specific opportunities for refugee researchers might be also presented to shelter talents escaping conflicts.

Researchers2Businesses (R2B) matchmaking events are organised by EURAXESS Network (<https://euraxess.ec.europa.eu/>)<sup>1</sup>.

<sup>1</sup>) Events are funded by project No: 101035541 – EURAXESS Hubs – H2020-IBA-SwafS-EURAXESS-Top-IV-2020. The organisers come from Slovakia (SAIA, n. o.), Czech Republic (The Centre of Administration and Operations of the Czech Academy of Sciences), France (France Universités) Albania (National Agency for Scientific Research and Innovation), Spain (Spanish Foundation for Science and Technology) and Ireland (The Irish Universities Association).

# TOPICS AND DATES

Events will be thematically focused. All researchers and companies generating new knowledge, developing and manufacturing innovative solutions in the following areas are welcome to participate:

<h2 style="text-align: center;">Health and Wellbeing</h2>	<h2 style="text-align: center;">Climate, Environment, and Mobility</h2>
<p style="text-align: center;">taking care of our health and well-being in a broad sense</p>	<p style="text-align: center;">improving and protecting the climate to prevent and slow-down climate changes and/or contributing to developing, designing and/or piloting new mobility/transport solutions</p>
<h3 style="text-align: center;">Date: June 6 – 7<sup>th</sup>, 2022</h3>	<h3 style="text-align: center;">Date: June 20<sup>th</sup>, 2022</h3>
<p>The related areas could be e.g.:</p> <ul style="list-style-type: none"> <li>• Medicine, Human Health, Therapeutics</li> <li>• Clinical research, trials</li> <li>• Pharmacy/Pharmaceutics</li> <li>• Microbiology/Biology/Biotechnology</li> <li>• Biochemistry/Biophysics</li> <li>• Technologies related to Biological sciences</li> <li>• Information processing &amp; systems, IT applications related to Health</li> <li>• Medical devices, sensors</li> <li>• Diagnostics</li> <li>• Care, Hygiene, Beauty</li> <li>• Food production, Food quality and safety, Nutrition</li> <li>• Agriculture</li> <li>• Sports, Leisure, Sports Medicine</li> <li>• Ageing</li> <li>• Mental health and Wellbeing</li> </ul>	<p>The related areas could be e.g.:</p> <ul style="list-style-type: none"> <li>• Meteorology/Climatology</li> <li>• Electronics/Microelectronics related to Transport</li> <li>• Information processing &amp; systems, IT applications related to Transport</li> <li>• Transport technologies</li> <li>• Environmental Engineering &amp; Technology</li> <li>• Air, Soil, Water pollution, treatment &amp; protection, waste &amp; water management</li> <li>• Climate change mitigation</li> <li>• Environment management Systems</li> <li>• Measurement, Detection tools, Sensing technology, Standards</li> <li>• Ecology/Biodiversity</li> <li>• Fire safety, Hazardous materials and Radiation protection</li> <li>• Renewable sources of energy</li> <li>• Socio-economic aspects/models of Climate change</li> </ul>

# PARTICIPANTS

---

**Companies:** with research, technology, development and innovation or related activities carried out in Europe<sup>1</sup>. All types of organisations (private, public, non-for-profit) and all company sizes are welcome.

**Early-stage researchers and postdocs:** PhD students and postdocs conducting research in Europe or outside Europe<sup>2</sup>. Researchers escaping from conflict zones are very welcome to participate.

Organisers will select participants so they fit well into the overall concept of the matchmaking fair and will try to provide fair opportunities to participants from various countries and regions. Up to 150 researchers and 50 companies can participate per event.

# AGENDA

---

Fairs will consist mainly of 1 on 1 meetings of researchers with company representatives. Company representatives shall be available for at least 12 personal 1 on 1 meetings. Here researchers and companies can focus on sharing achievements, discussing typical positions available for staff with research background, their responsibilities, ways of cooperation with academic institutions, specific career and cooperation offers. Scheduling of individual meetings in the defined time slots will be possible in advance as well as during the course of the event based on the agreement of both sides. Companies will also be given the opportunity to present their activities in parallel group sessions and researchers to hear about companies' portfolios.

<sup>1</sup> Companies with headquarters or branches located in 42 countries where EURAXESS Network is represented  
<https://euraxess.ec.europa.eu/choose-your-country>

<sup>2</sup> Postdocs – primarily within up to 8 years after graduating from PhD studies

# REGISTRATION

---

Participants can register via the links and QR codes below.

For more information follow the webpage: **EURAXESS Slovakia** ([www.euraxess.sk](http://www.euraxess.sk)).

For any questions please contact [euraxess@saia.sk](mailto:euraxess@saia.sk).

**Health & Wellbeing  
– companies**

registration by May 6<sup>th</sup>, 2022

**Health & Wellbeing  
– researchers**

registration by May 6<sup>th</sup>, 2022

**Climate, Environment  
& Mobility – companies**

registration by May 13<sup>th</sup>, 2022

**Climate, Environment  
& Mobility – researchers**

registration by May 13<sup>th</sup>, 2022

# FEES

---

Both events are free of charge.
